

Interviewing Tips

Video Interview

Minimize background noise by closing windows. Let your housemates or family members know that you need some quiet time.

Ensure a strong, stable Internet connection.

Make sure you are familiar with and have tested the technology that you will be using.

Verify your presence and background in a video.

Choose a quiet place for the interview. Public places may not be the best.

Look into the camera. Make eye contact.

Prepare good lighting.

Use headphones if possible.
