How to Find Your Ring Size

Found your dream ring, but you're not sure which size to buy? We've created this easy guide to help. Either use an existing ring to find the perfect match, or measure your finger using our Finger Sizer.

Measure an existing ring

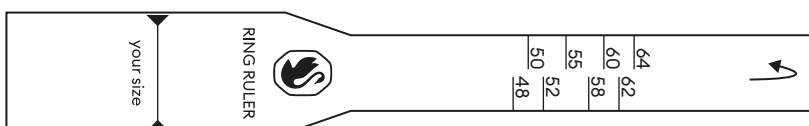

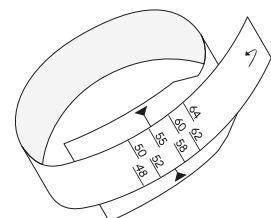

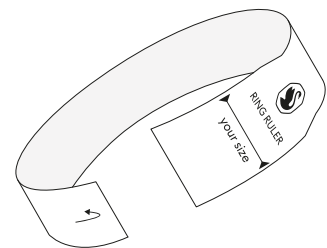

1. Print this page onto an A4 (or letter size) sheet of paper.
2. Place an existing ring over the circles on the chart and find the circle that matches the inner diameter of your ring.
3. If your ring falls between two sizes, we recommend you order the larger size.
